

PROOF ON THE DAY

PROOF ON THE DAY SYSTEM

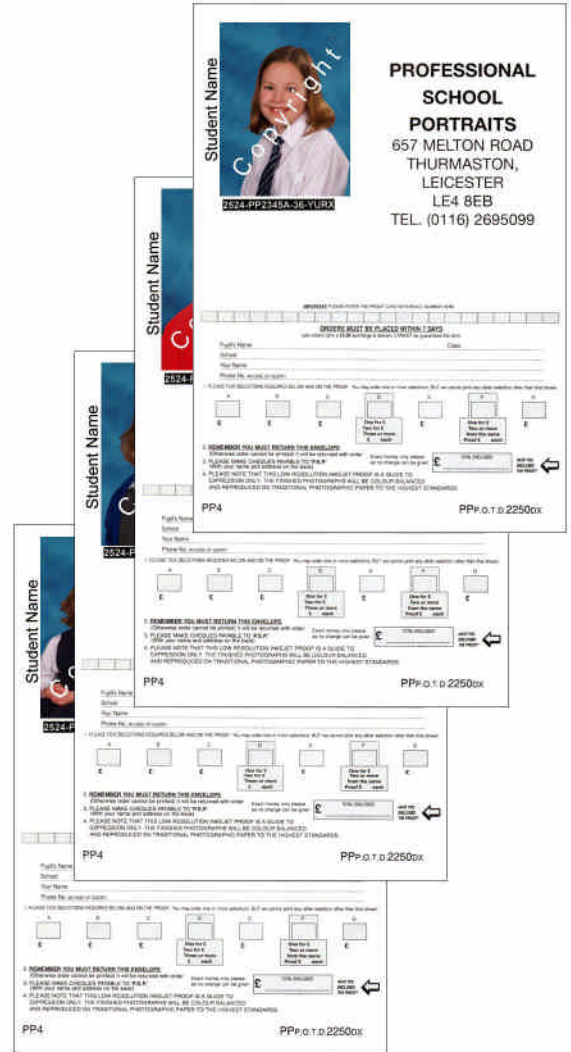

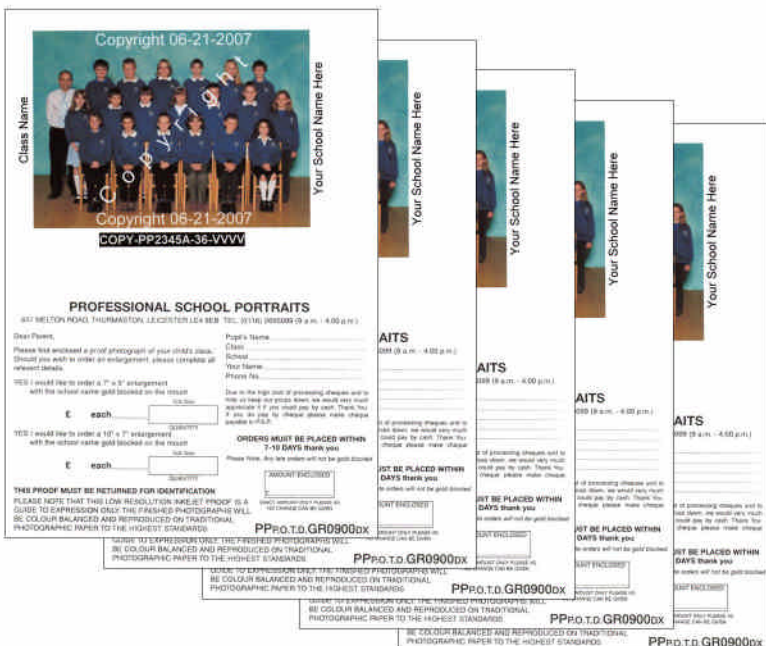

Introducing our **NEW** Proof On The Day system.

By using this latest system we can now **REDUCE** the **ADMINISTRATION BY** your **STAFF** even more!

There is no need for staff to spend time handing out proof cards weeks after the photographer has been, the only thing left is for the students to hand the completed envelopes back in to the school office!

Using this new system we can keep on photographing students at our schools for **1 WEEK LONGER** than the majority of other school photography companies. **BUT**, we can still ensure that the finished photographs will be back with your pupils **BEFORE THE END OF TERM!**

The photographs are taken the same way as usual, but with the images instantly printed onto envelopes. At the end of each class session the photographer will present the teacher with the proof envelopes to hand out when they return to their class room.

The reverse of the envelopes have been printed with our usual proof packs for your parents to choose from. The parents can then choose their packs put the payment in the envelope and bring the whole thing back to school!

Our Proof On the Day system can be used for the class group photographs as well as the pupil individual photographs.
